The Academy of Aphasia welcomes submissions of original experimental, clinical, theoretical and historical research from any field that contributes to the study of aphasia, including Speech-Language Pathology, Psychology, Neurology, Neuroscience, Neuroimaging, Linguistics, History and Computational Modeling. The Academy of Aphasia encourages submissions for platform papers, poster presentations, proposals for symposia that bring together researchers from different laboratories reporting on a common research theme, and mini-workshops with a methodological emphasis in which a unique approach to a timely topic may be presented by a single research group.
