

Research Assistant/Laboratory Manager Position
Cognitive Recovery Lab
PI: Peter Turkeltaub, MD, PhD
Department of Neurology
Georgetown University
Washington, DC, USA

The Research Assistant/Lab Manager will assist with cognitive neuroscience research studies and work collaboratively with students and post-doctoral scientists in the Cognitive Recovery Lab. Dr. Turkeltaub's research lab investigates the brain basis of language and recovery from aphasia. The lab also tests neuromodulatory treatments for aphasia in clinical trials. A variety of techniques are used including functional and structural MRI, transcranial magnetic stimulation, transcranial direct current stimulation, and EEG. Visit our website for more information at <https://sites.google.com/a/georgetown.edu/crl>.

The Research Assistant/Lab Manager will have the opportunity to run experiments involving participants with and without brain injuries, perform statistical analyses, present research at conferences, and write papers. S/he will also assist with grant preparation and be responsible for managing day-to-day operations of the lab, including IRB protocols.

Minimum requirements for the position include a Bachelor's degree, and prior research experience in cognitive psychology, neuroscience or related field. Prior MRI research and prior experience with people with aphasia are highly desirable. Individuals with programming experience, working knowledge of Matlab, EPrime, or R will be given preference. The candidate must be organized, personable, responsible, reliable, self-motivated, and efficient. The candidate must be comfortable working with patient populations.

This is a full-time position with a minimum two-year commitment. Interested candidates should email a CV, writing sample, and contact information for 3 references to Dr. Turkeltaub at turkeltp@georgetown.edu. Applications are being accepted on a rolling basis.

Georgetown University is an Affirmative Action/Equal Opportunity employer.

Peter Turkeltaub. MD, PhD
Assistant Professor of Neurology
